Introducing HI-Robot

Are you ready to revolutionize your customer engagement and boost sales to unprecedented heights? Say hello to HI-Robot – your intelligent and friendly Pre-Sales Coordinator! Designed to deliver exceptional customer experiences, HI-Robot seamlessly blends cutting-edge technology with personalized interactions, ensuring your customers receive the attention they deserve from the moment they step into your space.

A Greeting Like No Other

Imagine your customers being greeted with a warm smile and a friendly "Hello" as they enter your premises. HI-Robot is programmed to recognize and welcome customers, making them feel instantly valued and acknowledged.

Product Showcase Extraordinaire

HI-Robot takes product showcasing to the next level. Using its advanced algorithms, it identifies customer preferences and guides them through a curated selection of products tailored to their interests. With HI-Robot as your brand ambassador, every product shines and every feature is highlighted.

Seamless Navigation and Interaction

HI-Robot is equipped with state-of-the-art navigation capabilities that ensure it effortlessly guides customers to their desired product locations. It understands voice commands, gestures, and touch inputs, making the interaction experience intuitive and natural.

WE BUILD

OUR FUTURE

WE ARE JUST GETTING STARTED

WHY CHOOSE HI-ROBOT ?

HI-ROBOT was primly made for interacting with you. It will also help in assistant you in every possible ways and also developed to guide you with any confusions and doubts through AI.

Unparalleled Product Details

HI-Robot doesn't just guide customers; it educates them. As customers select products of interest, HI-Robot provides in-depth details, specifications, and benefits, answering questions and instilling confidence in their purchasing decisions.

Effortless Handover to Sales

When it's time to take the next step in the sales journey, HI-Robot makes the transition seamless. Through a sophisticated attendance recognition system, HI-Robot detects sales personnel availability and efficiently transfers customers to a human representative for personalized assistance.

Tailored to Your Space

HI-Robot is adaptable to any environment. Through customizable settings, you can tailor its appearance and interactions to match your brand's personality and the unique layout of your space.

Auto Navigation and Docking

Navigating busy spaces is a breeze for HI-Robot. Its intelligent sensors and mapping capabilities allow it to autonomously maneuver through your environment while avoiding obstacles. When its battery needs a recharge, HI-Robot automatically docks itself, ensuring it's always ready to engage with customers.

Powerful Remote Control

Managing HI-Robot is at your fingertips. The dedicated mobile app and web controller allow you to take charge of HI-Robot's movements and interactions remotely, ensuring you're always in control no matter where you are.

Elevate Your Customer Experience

HI-Robot isn't just a robot – it's an extension of your brand's commitment to excellence. Elevate customer experience, streamline the sales process, and create lasting impressions with HI-Robot as your brand's Pre-Sales Coordinator

Highly Flexible

Flexible is their ability to perform several different kinds of applications. Many robots can handle material, as well as weld and/or remove material.
